

Drive event to host luxury manufacturers

An impressive list of exhibitors has been announced for Drive '09 – the Professional Driver's Event in September.

The exclusive event to be hosted at the Transport Research Laboratory in Berkshire is the only chance for the Chauffeur and Private hire industries to network and test the latest vehicles back to back in a controlled environment. The show is taking place on 26th and 27th September 2009.

Among the new vehicles which will be displayed will be the new Mercedes-Benz E-Class, the all-new Jaguar XJ and the recently introduced BMW 730 D- LWB. There will also be extensive display from Lexus which is set to show its stunning LS range and Audi who will also be attending with its latest range of vehicles.

Safety experts, Ultimate Car Control will be on hand allowing visitors to experience advanced driving techniques from ABS braking to emergency car control. This will be the first for the Drive event.

An extensive list of seminars has also been announced, full details of which can be found on the show's web site www.drive09.co.uk which give the industry a chance to listen to guest speakers talk on a variety of topics. Driver Etiquette, vehicle purchasing issues, franchising and advanced techniques are just some of the subjects which will be covered.

By popular demand, authorities such as VOSA and the Public Carriage Office will be attending to talk to the Chauffeur, limousine and private hire industries about licensing. Hundreds of professionals attended the seminar at Drive '08 last year which saw officials from the authorities answer areas of concern from the trade.

TRL is conveniently located just a few miles from junction 3 of the M3 and junction 10 of the M4. Heathrow Airport is just 30 minutes away and the venue is just 45 minutes from Central London.

WIN £500 OF FREE FUEL

The show organisers are offering the chance to win £500 of free fuel if you register yourself and a colleague and attend the event on 26th or 27th September 2009.

Terms and conditions apply.
